1. Introduction

This Basis of Trading provides information to our customers when accessing the services of Sadleirs Logistics.

It should be read in conjunction with, and subject to, our **conditions of cartage** and any other specific conditions agreed.

The Basis of Trading may be updated from time to time and the latest version is accessible [here](#).

The document has been put together as part of our ongoing commitment to continuous improvement and is packed full of useful information to make your customer experience with Sadleirs Logistics even better and far more seamless. We hope you find our Basis of Trading extremely useful and informative.

Should you require any further information, or if you require any further clarification, please contact your Sadleirs Representative.

2. How to calculate the cubic volume of freight

Sadleirs Logistics will charge either DEAD weight or CUBIC weight – whichever is greater.

Dead weight

The actual weight of the item.

Cubic weight

The size of the freight item.

Standard Cubic Conversion

1 cubic metre of space
= **333 KG**

Cubic Weight Formula

Multiply the Length (L) x Width (W) x Height (H)
= M3 (Cubic measurement)

To convert the cubic measurement to KG multiply the M3 amount by the conversion rate of 333.

Example

L = 95cm (or 0.95m)
W = 120cm (or 1.2m)
H = 135cm (or 1.35m)

Multiply the Length x Width x Height = M3
Multiply the M3 amount by the conversion rate of 333.
 $0.95 \times 1.2 \times 1.35 = 1.539\text{m}^3 \times 333 = 512.487 \text{ kgs}$

You will be charged the greater of the two - dead weight or cubic weight.

If the actual item weighed 750kg, then you would be charged the dead weight.

But if the item weighed 250kg, you would be charged the cubic weight of 512.487kg.

Please note that 3-cube conversion only applies to standard sized pallets and skids.

As we are unable to consolidate and blend, all oversized freight and obscure sizes will be rounded up to the nearest 1.2m.

Please note that if your freight is on a pallet or any other sort of packaging you must include this in your cubic and weight calculation.

Also note that if the item is an odd shape, the greatest points must be used.

3. Over Length Surcharge

4. Un-Crated Freight

X Un-crated goods and machinery are not deemed general freight. Price on application. Also please note that all machinery must have fluids removed – ie, oil, fuel or any other type of fluids.

5. Freight Weight (including pallets)

Declared weights must be accurate as part of our shared **Chain of Responsibility & Legislative Requirements.**

Sadleirs conducts regular weight audits and any under declared weight will be charged at the normal tonnage rate.

Please note that if your freight profile materially changes to that quoted, this will trigger a review of current freight rates.

6. Booking & Freight Availability

All bookings to be made via [Sadleirs Online Portal](#).

Where possible, all freight bookings are to be made on the day before collection. Freight being dropped into Sadleirs needs to be delivered before 1.00pm on the day of departure.

7. Consignment Fee

A consignment fee of \$20.00 will apply to all consignments.

For customers not using our Online Portal for their freight bookings and printing of consignment notes, a manual consignment note fee of \$30.00 per consignment will apply.

8. Packaging of Goods

Adequately packaging your goods for safe transport is one of the most critical tasks in transport. Packaging must be suitable and comply as part of our shared Chain of Responsibility and Legislative Requirements. When packaging your goods, please ensure:

The packaging is *strong* enough to cope with the weight and density of the goods.

The packaging is *robust* enough to handle the rigours of normal freight distribution systems.

We will treat your consignment with the utmost care but please note our driver will not collect your goods unless they are correctly packaged. If you are unsure of your obligations please refer to the [CoR Standard](#) & [Load Restraint Guide](#). Packaging must be suitable and comply as part of our shared Chain of Responsibility & Legislative Requirements.

Did you know Sadleirs operate a [Packaging Division](#) that provide logistics products to ensure your goods are moved safely, efficiently and correctly. All fully customisable & tailored for your business. If you need any assistance please [contact](#) our Client Services Team.

9. Booking Cancellation - Full Container Loads

Where a customer has requested a Full Container Load a minimum 24 hours' notice is required for cancellations. Failing to cancel within 24 hours will incur the cost of that rail slot.

Please note that late cancellation fees will apply due to charges from our Rail Provider.

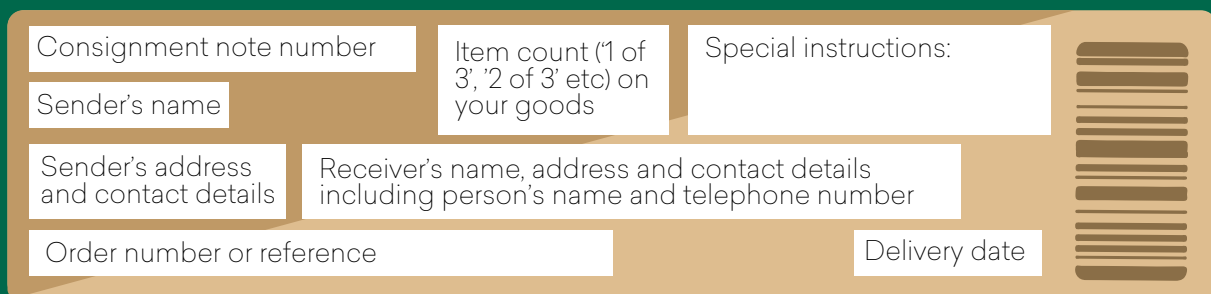

10. Sadleirs Delivery Times

Sadleirs standard delivery times are Monday - Friday between 7.00am and 5.00pm. Delivery outside of these hours can be made. Please **contact** our Client Services Team for more details.

11. Labelling of Freight

Labelling is a very important factor when it comes to transporting your deliveries. You wouldn't send a blank envelope through the post.....the same principles apply in transport.

Please ensure that your goods are correctly labelled with as a minimum the following:

The diagram shows a rectangular label layout with several white text boxes on a brown background. On the right side, there is a vertical barcode. The fields are:

- Consignment note number
- Sender's name
- Sender's address and contact details
- Order number or reference
- Item count ('1 of 3', '2 of 3' etc) on your goods
- Receiver's name, address and contact details including person's name and telephone number
- Special instructions:
- Delivery date

Please note that we do not deliver to restaurants, post office boxes, residential addresses, shopping centres or multi-story buildings.

These orders can either be picked up from our Depot, or alternatively we can organise a pre-arranged 3rd Party to perform the final delivery.

Labels can be printed from our online portal. If you need any assistance **contact** your local Client Services Team.

12. Paperwork

Consignment notes are a critical component in Chain of Responsibility, and without them we can not fulfill our legislative requirement.

Consignment notes are mandatory at all collections, and we will not pick-up any freight without a consignment note. **No consignment note = no pick-up.**

The only things that should be attached to your Consignment Notes are:

- Safety Data Sheets for dangerous goods
- Invoices for DC deliveries (2 copies)
- Pallet Dockets

Any other documents should be attached to the freight.

13. Limited Liability Waiver

An automatic \$10 additional charge per consignment note provides coverage of up to \$1000 for general freight (excluding freezer/chiller goods) and \$500 for fragile goods (excluding glass products). See our conditions of cartage for details.

If declined please be aware that neither our company nor any carriers, subcontractors or agents used are common carriers and no liability is accepted for damage, loss etc. As per our conditions of cartage.

14. Fuel Surcharge

All transport rates are subject to our monthly fuel surcharge. Our fuel surcharge is adjusted and updated one month in advance in line with the movement in fuel prices. See latest fuel levies [here](#).

15. Support our Occupational Health & Safety Standards

Please consider the safety of our staff, in particular with tall and bulky items. We recommend the use of skids and pallets for heavy items so they may be forked on and off.

Cartons requiring hand loading/unloading to be limited to 20kg max. Again, we ask that all packaging and strapping be adequate.

Drums loaded on pallets present a safety risk if they are not unitised to the pallet. Unitising a drum requires the application of sufficient restraint to the drum and pallet so that the drum will not become free of the pallet during all transport and handling activities.

16. Pallets

Sadleirs is not a pallet supply company. Customers must provide their own Loscam/Chep pallets and accept liability for the cost of extra pallets if required for a delivery.

With all pallet movements, Customers must either:

- Send the pallets direct to the End Receiver (which is Sadleirs' preferred option); or
- Transfer the pallets on to the Sadleirs Loscam/Chep account (in accordance with the Pallet Account Transfer process set out below).

On the relevant Consignment Note, Customers must specify:

- Whether the Customer has elected to use Chep or Loscam; and
- The number of pallets and pallet type (Loscam/Chep).

Sadleirs will not accept pallet exchanges, short term loans or IOU's. See full terms [here](#).

17. Transit times are expressed in working days

Any estimated transit days quoted will be exclusive of public holidays and weekends.

[Click here
for our
current
Schedule](#)

Let us know if the receiver of your delivery has special requirements. These might include time slot bookings, call on approach, special instructions etc.

We will do our best to accommodate you, but please communicate these special requirements at the time of booking. Time slotted deliveries will require an additional day's lead time.

18. Demurrage at Pickup & Delivery

A maximum of 30 minutes is allowed for the pickup or delivery of LCL freight.

Any delays in excess of 30 minutes will incur detention charges of \$90.00 per hour.

Full container allowance is 1 hour at pickup and 1 hour at delivery.

Any delays in excess of 1 hour will incur detention charges of \$130.00 per hour.

19. Storage Charges

Additional charges of \$5.00 per pallet per day (or part thereof) will apply for either freight dropped in more than **24 hours** early, or if the receiver cannot take delivery within 24 hours of arrival.

20. Time Slot Deliveries

Where delivery goods have to be booked into a bulk warehouse the time slot will be arranged by Sadleirs (except Woolworths orders).

Two copies of the Senders invoice must accompany the consignment note to enable bookings to be made.

Please note that a maximum of 1 hour is allowed for the delivery of consolidated freight, any further delays will incur detention charges of \$130.00 per hour.

Time slotted deliveries will require an additional days lead time.

21. Western Australian Quarantine & Inspection Service

It is a requirement under the Plant Diseases Regulations 1989, that the freight carrier declares the contents of the load and any "Quarantine Risk Material" contained therein. The SENDER is required to notify us of any "QRM" including packaging contained in the consignment.

Details of "QRM" are available from WAQIS.

(08) 9334 1800

22. Dangerous Goods

Sadleirs do not handle Class 1 (Explosives), Class 6.2 (Infectious Substances) or Class 7 (Radioactive) goods.

For the cartage of all other dangerous goods as defined by the "Australian Dangerous Goods Code Seventh Edition", all rates will attract an additional \$75.00 for consignments up to 1000kg and \$150.00 for consignments over 1000kg.

As a consignor you have significant responsibilities, including an obligation to inform all parties that the goods that are travelling are Dangerous Goods (DG).

Fines apply for the incorrect marking of packages that contain dangerous goods or other goods marked incorrectly as dangerous goods. All documentation required under the A.D.G Code must accompany the goods.

Sadleirs reserves the right to decline a consignment if the goods are not booked as DG or if goods are not packed and loaded accordingly with the required documentation.

23. Re-Consignment Fee

An additional charge of \$75.00 + GST will be imposed for any freight requiring re-direction, or re-delivery (metro area).

24. Tailgate Fee

A tailgate fee will be applicable where there is no forklift to load or unload product, and requirement is to supply a vehicle with tailift (metro area).

1-2 pallets: \$75.00 per delivery.
3+ pallets: \$37.50 per pallet

Hand unload will only be performed where this has been pre-arranged with the relevant Sadleirs Depot, and once additional costs have been agreed.

25. Futile Pick Up & Delivery Fee

The following futile fees will apply if the goods are not ready or if no one is available for collection, where the incorrect address was provided and where delivery cannot be completed because no one is available for unloading, or address is incorrect. Applicable for each collection and delivery attempt.

LCL pick up and delivery - \$90.00 (per hour/per consignment)

FCL pick up and delivery - \$130.00 (per hour/per consignment)

26. Table of Additional Charges

Additional Charge	Details	Amount
Over length surcharge	Freight exceeding 2.35m in length	POA
Consignment fee	For all consignments	\$20.00
Manual consignment fee	For consignments not booked through the Sadleirs Portal	\$30.00
Delayed pick-up/delivery fee LCL	Delays in excess of 30 minutes	\$90.00 per hour
Delayed pick-up/delivery fee FCL	Delays in excess of 1 hour	\$130.00 per hour
Fuel surcharge	All transport rates are subject to our monthly fuel surcharge.	See here .
Storage charge	For freight dropped in more than 24hrs early, or if the receiver cannot take delivery within 24 hours of arrival.	\$5 per day per pallet
Time slot delay fee	Delivery exceeding max 1 hour.	\$130.00 per hour
Dangerous Good Fee	For consignments up to 1000kg	\$75.00
Dangerous Good Fee	For consignments greater than 1000kg	\$150.00
Re consignment fee	Freight requiring re-direction, or re-delivery.	\$75.00
Tailgate fee	Where there is no forklift to load or unload product, and requirement is to supply a vehicle with taillift.	1-2 Pallets: \$75.00 Per delivery. 3+ Pallets: \$37.50 Per pallet
Futile Pick-up & delivery Fee - LCL	Goods not ready/Incorrect address/no one available for collection.	\$90.00 (per hour/per consignment)
Futile Pick-up & delivery Fee - FCL	Goods not ready/Incorrect address/no one available for collection.	\$130.00 (per hour/per consignment)
Manual POD's	Manual request rather than online.	\$15.00 per POD
